## LINING OUT STOCK

# MATTHEWS NURSERY

HARBOR SPRINGS, MICHIGAN

Telephone 123 or 732

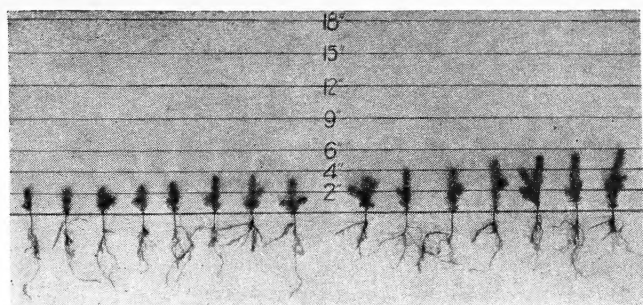

This area is a natural habitat of Spruces, Pines and other Conifers. Northern Michigan produced some of the finest stands of Pine in North America.

Our natural sandy loam soil, aided by our effective soil improvement methods, lends itself to the development of an exceptional root system. This, in the final analysis, is the major factor in determining the success or failure of any planting operation.

Our illustrations are of typical stock dug from this years beds of both seedlings and transplants. The trees shown are selected, to represent as nearly as possible, the trees you will receive in any shipment.

By proper seedbed spacing and soils practices, we are, each year, growing trees of higher quality with a root system which increases the chance of survival when the stock is transplanted.

### COLORADO BLUE SPRUCE

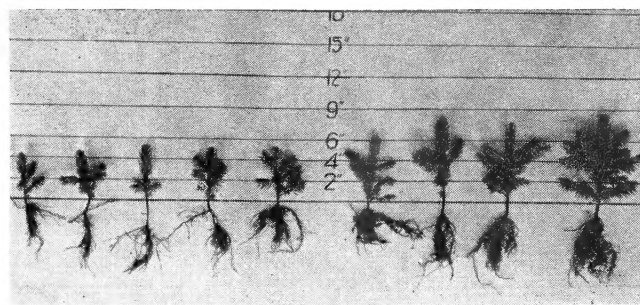

COLORADO BLUE SPRUCE 3-0, 2 to 4 ins.

per 100	\$4.00
per 1000	20.00
per 10,000	18.00 per M

COLORADO BLUE SPRUCE 3-0, 4 to 6 ins.

per 100	\$6.00
per 1000	32.00
per 10,000	30.00 per M

COLORADO BLUE SPRUCE 3-2, 4 to 6 ins.

per 100	\$10.00
per 1000	80.00

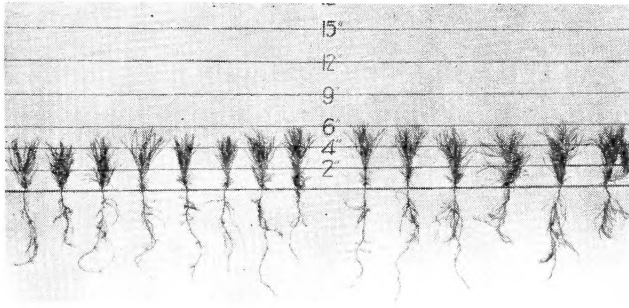

COLORADO BLUE SPRUCE 3-2, 6 to 9 ins.

per 100	\$16.00
per 1000	150.00

Our Colorado Blue Spruce are grown from the finest seed we can buy from the most reliable sources to produce the highest possible percentage of blue trees.

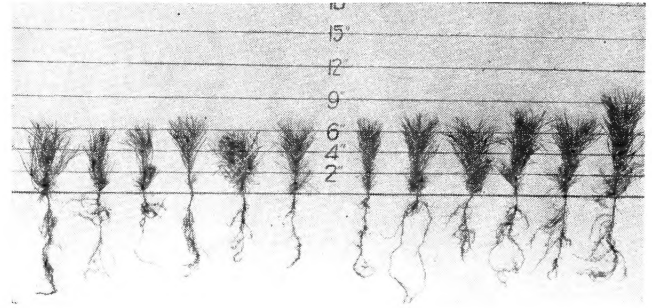

The cones are not all from real blue trees, and our trees are not all blue. They are the best grade we can make them, and are bed run and unrogued.

## SCOTCH PINE SEEDLINGS

SCOTCH PINE 2-1, 2 to 3½ ins.

per 100	\$ 4.00
per 1000	16.00
per 10,000	15.00 per M
per 100,000	14.00 per M

SCOTCH PINE 2-0, 3½ to 8 ins.

per 100	\$ 6.00
per 1000	25.00
per 10,000	23.50 per M
per 100,000	22.00 per M

## SCOTCH PINE SEEDLINGS

The average size of our Scotch Pine seedlings is larger than in past years.

Accordingly we have increased the grade size (formerly 3-8 in.) to 3½ to 8 in.; at the same time the price has been reduced about \$5.00 per 1,000.

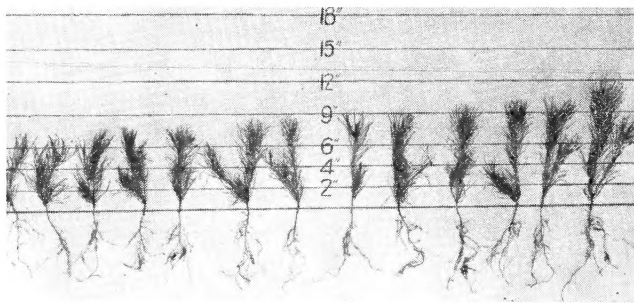

The average tree size is about 1 inch larger in both grades.

The smaller size seedling (formerly 1-3 in.) has been increased to 2 to 3½ in., up 50% in size with a resulting price increase of about 12% over last year's smaller size.

## FALL PLANTING

If the planting site has a sandy loam soil and the trees are planted early, we have found Fall planting equally as favorable as Spring planting in every respect

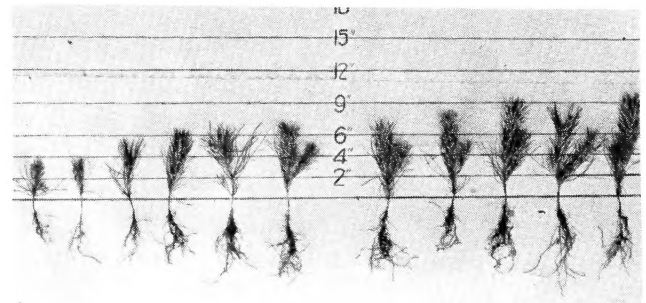

## SCOTCH PINE SEEDLINGS

SCOTCH PINE 3-0, 5 to 10 ins.

per 100	\$ 7.50
per 1000	30.00
per 10,000	28.00 per M
per 100,000	26.00 per M

## SCOTCH PINE TRANSPLANTS

SCOTCH PINE 2-1, 3 to 8 ins.

per 100	\$ 9.00
per 1000	45.00
per 10,000	40.00 per M

Under certain field planting conditions, some of our customers prefer larger stock. For this reason we have included the three year seedlings and the one year transplants in our Scotch Pine inventory.

## TERMS

Cash with order please; or 25% deposit, balance before shipment. 5% discount if balance paid before shipping on Fall orders; paid before December 1, 1952 on Spring orders.

25 at 100 rate; 250 at 1000 rate; all seedlings in multiples of 50, all transplants in multiples of 10.

Minimum order \$10.00

Packing at materials cost, charges billed when shipped.

All shipments by Express Collect or Parcel Post unless otherwise specified.

Quantity prices apply to single items only, in one shipment.

Our inventory is based on careful estimates; in seedlings, typical cross sections are dug and counted. Orders will be accepted only within conservative estimates and subject to losses beyond our control.

**Samples on request**

## NEXT YEAR

Our stock for Fall 1953 and Spring 1954 will include the following. Riga Scotch Pine seedlings and transplants, Austrian Pine seedlings, Mugho Pine seedlings, Douglas Fir seedlings, Black Hills Spruce seedlings and transplants, Colorado Blue Spruce seedlings and transplants, Taxus from seed once transplanted, and a small variety of other stock.

## WE INVITE YOU

You are welcome to visit our Nursery at any time.

Harbor Springs is located on Lake Michigan, near the north end of U.S. 131 and is 33 miles south of the tip of the lower peninsula of Michigan.

Seeing the trees growing in the beds, and seeing samples dug from any spot you may choose, tells you so much more than can be told by any illustration or description.

We would like to have you come and see it as others have.
